EPA Pesticide Branch MS-524
1200 6th Avenue
Seattle, WA 98101

Attention: Mr. Lyn Frandsen

Dear Lyn:

On January 26, 1987 (b)(6) Yakima, Washington contacted the Washington State Department of Agriculture about a possible exposure to pesticides. (b)(6) was concerned because there is a possible toxic waste clean-up site next to his residence. The site is located at the U.S.D.A. Research Center on Nob Hill Blvd. in Yakima. (b)(6) requested that he be kept updated on the status of the site and any findings resulting from the study of the site. (b)(6) has been in contact with the Washington State Department of Ecology.

I put (b)(6) in contact with Dr. Robert Dolphin at the U.S.D.A. Lab. At this point in time Washington State Department of Agriculture has no apparent damage or apparent violations relating to (b)(6) complaint.

I asked (b)(6) to contact us if any symptoms of pesticide-related illness or plant injury occurred.

Thank you.

Sincerely,

Mike McCormick
Ag Chemical Investigator
